NEW WESTMINSTER, SATURDAY, NOVEMBER 28, 1863.

Price 6d. or 12 cts.

THIS JOURNAL is published every Wednesday and Saturday morning, and despatched by Mail and Express to all parts of these Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

## The British Columbian.

NEW WESTMINSTER, SATURDAY, NOV. 28, 1863.

### THE HOUSE OF ROTHSCHILD.

(From the London Globe.)

Among all the congresses held this summer of princes, lawyers, musicians, schoolmasters, social science men, political economists, and a hundred others, one very notable meeting has almost escaped public attention. A few days ago our Paris correspondent told us that a congress of the members of the illustrious house of Rothschild has been sitting at Paris. The purpose of the meeting was nothing less than to re-arrange the dominions of the great banking dynasty. In one word, the great object of the Rothschild congress was to reduce the five branches of the house who now rule Europe to four, and, following the example of Garibaldi, to strike another sovereign of Naples from the list of reigning monarchs. Henceforth there are to be but four kings of the house of Rothschild, with secure thrones at London, Paris, Vienna and Frankfurt. It is now exactly a hundred years since a poor Jew, called Mayer Anselm, made his appearance at the city of Hanover, barefooted, with a sack on his shoulder, and a bundle of rags on his back. Successful in trade, like most of his coreligionists, he returned to Frankfurt at the end of a few years, and set up a small shop in the "Jew Lane," over which hung the signboard of a red shield, called in German "rothschild."

As a dealer in oil and rare coins, he made the acquaintance of the Serene Elector of Hesse Cassel, who, happening to be in want of a confidential agent for various open and secret purposes, appointed the shrewd-looking Mayer Anselm to the post. The Serene Elector being compelled soon after to fly his country, Mayer Anselm took charge of his cash, amounting to several millions of florins. With the instinct of his race, Anselm did not forget to put the money out on good interest, so that before Napoleon was gone to Elba, and the illustrious Elector had returned to Cassel, the capital had more than doubled. The ruler of Hesse-Cassel thought it almost a marvel to get his money safely returned from the Jew Lane of Frankfurt, and at the Congress of Vienna was never tired of singing the praise of his Hebrew agent to all the Princes of Europe. The dwellers under the sign of the Red Shield laughed in their sleeves, keeping carefully to themselves the great fact that the Electoral two million florins brought them four millions of their own. Never was honesty a better policy.

Mayer Anselm died in 1812, without having the supreme satisfaction of hearing his honesty extolled by kings and princes. He left five sons, who succeeded him in the banking and money-lending business, and who, conscious of their social value, dropped the name of Anselm, and adopted the higher-sounding one of Rothschild, taken from the signboard over the paternal house. On his death-bed their father had taken a solemn oath from all of them to hold his four millions well together, and they have faithfully kept the injunction. But the old city of Frankfurt clearly was too narrow a realm for the fruitful sowing of four millions, and, in consequence, the five were determined after a while to extend their sphere of operations by establishing branch banks in the chief cities of Europe. The eldest son, Anselm, born in 1773, remained at Frankfurt; the second, Solomon, born in 1774, settled at Vienna; the third, Nathan, born in 1777, went to London; the fourth, Charles, the *enfant terrible* of the family, established himself in the soft climate of Naples; and the fifth and youngest, James, born 1792, took up his residence at Paris.

Strictly united, the wealth and power of the five Rothschilds was vested in the eldest born. Nevertheless, the shrewdest of the sons of Mayer Anselm, and the heir of his genius, Nathan the third son, took the reins into his own hands. By his faith in Wellington, and the flesh and muscle of British soldiers, he nearly doubled the fortune of his family, gaining more than a million sterling by the single battle of Waterloo, the news of which he carried to England two days earlier than the mail. The weight of the solid millions gradually transferred the ascendancy in the family from Germany to England, making London the metropolis of the reigning dynasty of Rothschild. Like the royal families of Europe, the members of the house of Rothschild only intermarry with each other. James Rothschild married the daughter of his brother Solomon; his son Edward, heir-apparent of the French line, was united to his first cousin, the daughter of Lionel, and grand-daughter of Nathan Rothschild; and Lionel again—M. P. for London—gave his hand in 1836 to his first cousin Charlotte, the daughter of Charles Rothschild of Naples. It is unnecessary to say that, although these matrimonial alliances have kept the millions wonderfully together, they have not improved the race of old Mayer Anselm of the Red Shield. Already signs of physical weakness are becoming visible in the great family. So at least hint the French papers in their meagre notices about the Rothschilds' Congress at Paris. From all that can be gathered out of a wilderness of *canards*, thin faces, and thick fiction, it appears that the sovereign of the stock exchange met in conference for the double purpose of centralizing their money-power and widening their

matrimonial realm. In other words, the five reigning kings, descendants, according to the law of primogeniture, of the five sons of Mayer Anselm, came to the decision to reduce their number to four, by cutting off the Neapolitan branch of Charles Rothschild, while it was like-wise decided that permission should be given to the younger members of the family to marry, for the benefit of the race, beyond the range of first cousinship. What has led to the exclusion of the Neapolitan line of Rothschild seems to have been the constant exercise of a highly blameable liberality unheard of in the annals of the family. Charles, the prodigal son of Mayer Anselm, actually presented, in the year 1846, 10,000 ducats to the orphan asylum of St. Carlo, at Naples, and the son and heir of Charles, Gustavus, has given repeated signs of his inclination to follow in the footsteps of his father. Such conduct, utterly unbecoming the policy of the house of Rothschild, could not be allowed to pass unnoticed, and accordingly—we quote the rumour of Paris journalism—the *dechéance* of the Neapolitan line has been pronounced. However, Baron Gustavus de Rothschild is not to retire into private life, like famous Charles V., with only a cassock on his shoulders and a prayer-book in his hand; but is allowed to take 150,000,000 francs, or about six millions sterling—a mere crumb from the table of the descendants of poor Mayer Anselm, who wandered shoeless through the electorate of good King George the third. It is certain that no romance of royalty is equal to the romance of the house of Rothschild.

## NEW ADVERTISEMENTS THIS DAY.

MEETING OF RIFLE COMPANY—Wm. Fisher.  
SAW MILL FOR SALE—Thos. W. Graham & Co.

## The British Columbian.

NEW WESTMINSTER, SATURDAY, NOV. 28, 1863.  
THE YALE-ALEXANDRIA ROAD.

Although the construction of the road, as it is, from Yale to Alexandria—we may say to Richfield—was a daring undertaking, and although it is very well made, yet there are portions of the road which are seriously defective and ought to be improved with the least possible delay. The three miles constructed in the latter part of the season by Spence & Co. is only 12 feet wide, entirely too narrow to admit of teams passing each other, while the last mile or so, constructed by the Royal Engineers, having been done in a great hurry, is almost impassable altogether for loaded wagons. The former section ought to be widened to 18 feet and the latter section improved, and it is most important that this should be done at once so that next spring's traffic may not be impeded thereby. This work is all the more important now that the Shuswap trade will go that way, at least for some time to come, and will be very considerable next season.

There is another subject, in connection with this road, to which we would respectfully call the attention of the Government. A new road of the character of the one under consideration, however well made in the first instance, is liable to give way and fall into disrepair in certain places, and it is therefore necessary that for the first year or so it should be closely watched, and these defects, as they appear, promptly repaired. A little slide, or the obstruction of a water course, if taken in time, would be easily remedied, whereas, if neglected might obstruct traffic and involve a large expenditure. "A stitch in time saves nine" in this as in other matters. We understand that the resident Magistrate at Yale has attended to that section of the road under his supervision with a care which does him much credit. He has employed men to keep it in good order, and frequently inspects it personally; and the result is that that portion of the road is in excellent order. We regret, however, that we cannot say as much for that portion of the road lying beyond Boston Bar. We are not aware whether the Lytton Magistrate is invested with the same discretionary power. But if he is not he certainly ought to be, and if he is, his attention should be directed to the importance of seeing that the road is kept in constant repair. Towards spring, when the frost leaves the ground and slides are more liable to take place, it will be absolutely necessary to keep an efficient staff of men upon the road, otherwise trade will assuredly be interrupted, a contingency which reasonable precaution will avert. We sincerely trust these subjects will receive the early attention of the Government.

## NEW WESTMINSTER VOLUNTEER RIFLE COMPANY, NO. 1.

It will be seen by reference to the report of the meeting held on Wednesday night that an adjourned meeting takes place this evening in the Town Hall for the purpose of electing officers. The meeting to-night may fairly be considered the most important which has yet taken place relative to the same subject, inasmuch as very much depends upon the choice of officers as to whether the organization shall succeed or come to a premature end. It is most desirable they should, if possible, be elected by acclamation. We know human nature too well to suppose that in the event of two or more candidates being balloted for those members who vote for the unsuccessful aspirant will be as well satisfied or take as much interest in the company as if they had elected their man. We sincerely trust, therefore, that all will be actuated by a desire to promote that unanimity of feeling and purpose which is so essential in an organization like the one under consideration, and agree upon the commanding officer, at least, without referring the matter to the ballot-box at all.

Judging from the spirit of His Excellency's reply to the application from the Committee, a copy of which we published on Wednesday, the movement will receive every proper encouragement and support from the Colonial Government. The auspicious circumstances under which the corps is being formed, the need the Colony has for it, and the miserable failure of a similar movement in the neighboring Colony, should all act as incentives to those who have enrolled themselves, or intend so doing, to lay aside every

feeling which is likely to mar its success, and with that unselfish zeal which is so indispensable for the promotion of an organization of this character, do all in their power to contribute towards its efficiency and permanent success. We need hardly remind our readers of the great advantage of securing the services of gentlemen as officers who have had experience in military discipline.

## NEW AND SPLENDID WATER POWER SAW MILL FOR SALE.

TO BE SOLD BY AUCTION AT THE OFFICE OF Mr. Valentine Hall, New Westminster, at 10 o'clock a.m., on the 16th of December next, the new, water power SAW MILL, situated on Burrard Inlet, with all the Houses and Appurtenances belonging thereto. The Saw Mill has two centre-discharge water wheels, two circular saws in working order, one of Woodward's best 22-inch Planing Machines, nearly new, all the bands, straps and appurtenances of the Mill nearly new. There will also be sold the right to 480 acres of Land belonging to the proprietors. The Mill is situated close to the shore, with deep water alongside. The best Timber for Lumber in British Columbia is in abundance close to the Mill, and can be handled with great facility. There are about one million of feet in logs, cut and prepared for hauling, which will also be sold; also, two yoke and a half of Oxen, with their yokes and chains, and also a set of Blacksmith's tools. The water head of the Mill is estimated at 50 horse power.

Parties desirous of purchasing by private sale, previous to the 16th December, can do so.  
Any communications on the subject are to be addressed to Mr. Valentine Hall, New Westminster.

## MANHOOD

—AND—

## THE VIGOR OF YOUTH RESTORED!

## IN FOUR WEEKS, BY

DR. SCICOTTE'S ESSENCE OF LIFE.

DR. SCICOTTE (OF PARIS) AFTER YEARS OF earnest solicitation, has at length succeeded to the urgent request of the American public, and appointed an Agent in Toronto for the sale of his valued and highly prized Essence of Life. This wonderful agent will restore Manhood to the most shattered constitutions, whether arising from excesses, the effects of climate, or natural causes. The time required to cure the most inveterate case is four weeks; and, if used according to printed instructions, which are very simple, failure is impossible. This life-restoring remedy should be taken by all about to marry, as its effects are permanent. It is acknowledged by the medical press to be the greatest discovery ever made. Its developing powers are miraculous. Success, in every case, is as certain as that science overthrows ignorance.  
Dr. Scicotte's Essence of Life is sold in cases, with full instructions for use, at \$3, or four quantities in one for \$9, and will be sent to any part, carefully packed, on receipt of remittance to his accredited agent.

## The British Columbian.

NEW WESTMINSTER, SATURDAY, NOV. 28, 1863.

## THE LATE ACCIDENT.

We learn from Mr. Sanderson, one of the survivors of the melancholy accident recorded in our last issue, that in giving the names of those who were drowned we were in error in two instances. Instead of Smith and Anderson, it should have been Robert Kelly and James Henderson. The names of the saved are:—William C. Dinwoodie, John Sanderson, John La Chapelle, John Byrns, W. C. Bourdon, and the Frenchman who owned and piloted the boat. We learn that this latter gentleman, so soon as he was set on shore, made off to the Mouth of Quesselle, as fast as possible, without even waiting to ascertain the result of the accident, evidently fearing the merited wrath of the survivors.

A passenger in one of the boats which followed, upon ascertaining what had happened, returned to the Mouth and made known the circumstances, when two gentlemen, Charles Donaldson, who has the Ferry there, and John Duha, came down with a plentiful supply of clothing, provisions, and such articles as might be needed. These gentlemen, in common with the people at the Mouth of Quesselle, deserve great praise for their sympathy and prompt liberality, so timely displayed. There is no hope entertained of recovering the bodies of those who were lost. Five of those who were saved arrived here by the steamer *Hope* on Wednesday evening. We have not been able to learn the precise amount of treasure which was lost. Mr. Alex. Nelson of this city is, we regret to say, the loser of between \$2000 and \$3000 by the accident, as one of the party had that amount bringing down for him.

The mining season of 1863 has happily been more than usually free from accidents resulting in loss of life. It has not been our painful duty to chronicle any great disaster such as some with which the Colony was visited during preceding years; but this accident casts a gloom over the close of the season.

**THE DEBATING SOCIETY.**—This literary association held its regular meeting on Wednesday evening, but in consideration of two other meetings being called at the same time they adjourned till the following evening. The subject of debate was:—"Is universal suffrage more consistent with good government than a liberal franchise, such as that of Great Britain and her Colonies?" The question was decided in the affirmative, although both speakers, Judge, or President, admitted their feelings and convictions to be on the other side. The speaking on both sides was characterized by more than usual ability, whether owing to the infusion of new blood or the influence produced by a large auditory we are not prepared to determine. There were, in addition to the members of the Society, 55 persons present, being a very great improvement upon last season. If this Society is properly conducted there is no doubt that many will avail themselves of such a favorable mode of passing an hour during the long winter evenings. We would suggest that some sort of seats should be provided beyond what the Hall now contains, as they are quite inadequate.

**THE SOIREE.**—One of these good old-fashioned reunions was held in Webster's Hall last evening. The primary object was to aid the building fund of the Presbyterian Church. The Rev. J. Hall, of Victoria, the Rev. A. Browning and the Rev. R. Jamieson, of New Westminster, were the speakers. The Rev. L. Taylor and Dr. Evans were expected to be present, but did not arrive. The attendance was large, the edibles passable, the speeches good and the music excellent. The financial result we have not yet learned.

**THE STR. "HOPE"** arrived from Douglas on Wednesday with 45 passengers amongst whom were the survivors of the late accident near the Mouth of Quesselle. She did not bring down much treasure beyond \$5,000, in Dietz & Nelson's Express.

**ALLEN vs. LASCELLES.**—This case was tried before a special jury in Victoria and terminated on the 24th in a verdict for the plaintiff, with \$1,000 damages. The case, as stated by Mr. Cary, and supported by evidence, agrees in all important particulars with the account published at the time the outrage was committed. It appears that several of the seamen belonging to the *Forward*, of whom the defendant is Commander, were placed in the witness-box and swore that the whole thing was conceived and carried out without the knowledge or consent of the commanding officer; and the natural inference is that they were suborned by their Commander in order to screen his rascality. If this be so the last act is no less cowardly than that for which he has been placed on trial and convicted. The damages are small when compared with the importance of the offence but yet sufficient to teach Capt. Lascelles and his ilk that holding Her Majesty's Commission does not entitle a man to trample upon the rights of his fellows with impunity. We congratulate the plaintiff upon the issue of the suit.

**THE OPPENHEIMER SUIT.**—We learn that the suit, the H. B. Co. vs. Oppenheimer & Co., recently tried in Victoria, and upon which the jury disagreed, has been withdrawn. We are also informed that such withdrawal is the result of letters received in Victoria from Mr. Charles Oppenheimer, who is at present in California, proposing to pay 80 cents in the dollar in liquidation of the debts of the Lytton and Alexandria Road Company. This intimation will be received with pleasure by many in this Colony, auguring, as it does, the probable return of that member of the Oppenheimer family. We have thought from the first that Mr. Charles Oppenheimer was "more sinned against than sinning," and we feel assured he would be very generally welcomed back to British Columbia.

## VOLUNTEER RIFLE COMPANY.

Pursuant to a notice advertised in the last issue of the *British Columbian*, a crowded adjourned meeting of the members of the above corps was held on Wednesday last in the Town Hall, Mr. John Ramage in the chair.

In a few brief remarks the chairman stated that the meeting had been called to receive from the Committee some of the rules which they had framed for the approval of the corps; but before proceeding to the business of the meeting he would call upon Mr. Wm. Fisher, the Secretary, to read the correspondence which had passed between the Committee and His Excellency the Governor. He looked upon the Governor's reply as the most favorable which could have been received.

Mr. Wm. Fisher then read the letter to His Excellency the Governor from the Committee, asking for his sanction to the formation of a Volunteer Rifle Corps in New Westminster, and the Governor's reply thereto. The chairman then stated that the Secretary would now read the rules, and that each one would be open for debate before passed.

Mr. John Robson proposed that the rules be only read, and that their acceptance by the Corps be left until the officers are elected.

Seconded by John P. Will. Carried. Proposed by Mr. Henry Holbrook, That a meeting be called on Wednesday night next for the election of a Captain, Lieutenant, Ensign, and non-commissioned officers.

Seconded by Mr. H. Waters. Carried.

Proposed as an amendment by Mr. John Robson, That a meeting be called on Saturday, the 27th inst., at 8 o'clock, for the election of a Captain, Lieutenant, and Ensign.

Mr. Holbrook, having withdrawn the original resolution, Mr. Robson's amendment was carried unanimously. Mr. Henry Holbrook then proposed the following resolution:

That any person wishing to vote at the election for officers pay the sum of \$1.00 as his entrance fee before such election, to the Secretary at his office, or in the meeting room, an hour before the election.

Seconded by Mr. Manson. Carried.

Proposed by Mr. John Robson, That the election of officers be by ballot, and that each name proposed, having the lowest number of votes, be struck off until one name be left, which person will be the elected officer.

Seconded by Mr. R. Wolfenden. Carried.

Proposed by Mr. E. Brown, and seconded by Mr. Robert Greig, That no person be proposed as officer of this Corps unless he be a duly registered member of the Company. Carried.

The chairman then called upon the Secretary to read the muster roll; the number enrolled being 78. After which the meeting adjourned until Saturday next at 8 o'clock.

WILLIAM FISHER, Secretary.

**THE STR. "RELIANCE"** arrived from Yale last night, bringing 22 passengers and Dietz & Nelson's Express with \$3,000 in treasure. There is no later news from the mines. The steamer reached Yale on Thursday and had the Rev. L. Taylor on board. He is expected down on Tuesday.

## CORRESPONDENCE.

To the Editor of the British Columbian.

SIR,—I arrived in this town a few days ago, en route to Fort Yale, with a drove of hogs, and hired a vacant house from Mr. Cafferty to keep them in until I could make arrangements to ship them on the steamer. Judge of my surprise when, upon going to the house, I found they had been removed by a bailiff and placed in Harris & Co.'s store house, and was informed that I could not take my property until I had paid up the arrears of rent due by Mr. Cafferty on the above house, and actually had to pay one hundred dollars before I could get possession of my hogs. The following copy of the receipt will speak for itself.

"Received of Charles Stanbury & Co. One Hundred Dollars as satisfaction of the arrears of rent of E. Cafferty under the distress levied by me for such arrears up to 20th November, 1863.

(Signed,) W. E. CORMACK, For James Trimble."

Now, Mr. Editor, is this the way the merchants of this town expect to make this the great commercial emporium of the Pacific? by seizing a shipper's goods to pay local debts. Is it British Columbia law? Is it justice? If such is law no shippers goods are safe. They may be seized on the steamer for their debts; they may be seized on the wharf or in the storehouse for the wharfingers' debts; or a traveller's trunk may be seized from any hotel for the landlord's debts.

Please ventilate this matter, Mr. Editor, for the benefit of up-country shippers, and oblige Your obedient servant,

CHARLES STANBURY.

[We believe Mr. Cormack, as agent for Dr. Trimble, has acted perfectly legally. Of course Stanbury & Co. can recover from the lessee of the house in which they stored their pigs. At first sight the law may appear harsh; but were it otherwise a still greater hardship would exist on the other side, and owners of real estate would enjoy little protection.—Ed.]

**SLEEPING IN CHURCH.**—In some churches with which we are acquainted, a beadle, furnished with a long white wand, pokes and raps the poor slumberers, to the great confusion of the more wakeful portion of the congregation. This important individual, whom the scoffing charity boys familiarly recognize as "the Nobleman," is the modern representative of those persons who, two centuries ago, were employed to drive dogs out of the church and keep awake the persons who were in it. Occasionally, their wand of office was furnished with a fox's tail, with which the faces of somnolent females were rubbed or tickled, the beadies thus doing their spitting gently out of honour to the fair sex, but yet dealing more severely with drowsy males with the stouter end of the staff. Except in rare instances, the milder edicts of the Victorian era permit the modern Eutychus to enjoy his nap undisturbed; and he may drowse on with

the full assurance that but few preachers would now condescend to those eccentricities with which Latimer, Whitefield, Rowland Hill, and Huntingdon were wont to keep their congregations awake. In the days when the pulpit hour-glass measured out the time for the sermon—when men like Hugh Peters and Daniel Burgess could, at the end of the hour, coolly turn up the glass, and set its sands running again for another hour, with the vague assurance, "Another glass, and then?"—in such days when it was deemed that pulpit eloquence could not exist without prolixity, it was not a matter of wonder that exhausted human nature would seek its refuge in sleep; and that, in order to sustain wakefulness, the preacher should resort to certain devices which the manners of the age tolerated as harmless and useful adjuncts to his vocation. When, for example, Aylmer, who was Queen Elizabeth's Bishop of London, observed his congregation to be inattentive or slumbering, he was accustomed to read several verses from a Hebrew Bible; and, when his flock roused to listen to the unworded sounds, he would show them their folly in allowing their ears to be tickled by what they could not comprehend, and while they bestowed but little attention on things all-important and easy to be understood. —*Churchman's Family Magazine.*

**SOUNDING NIAGARA.**—The gentleman who has been trying the experiment of sounding the river Niagara below the Falls writes as follows:—"Another attempt was made with a similar iron of about ten pounds weight, attached to a No. 11 wire, all freely suspended, so as not to impede the fall of the weight. I then let the weight fall from the bridge, at the height of 225 feet. It struck the surface fairly, with the point down must have sunk to some depth, but was no longer out of sight than one second, when it made its appearance again on the surface about 100 feet down the stream, and skipped along like a chip until it was checked by the wire. We then commenced hauling in slowly, which made the iron bounce like a ball, when a cake of ice struck it and ended the sport. I am satisfied that no metal has sufficient specific gravity to pierce that current, even with a momentum acquired by a fall of 225 feet. The velocity of the iron, when striking, must have been equal to 134 feet per second, and consequently its momentum was near 5,000 pounds. Its surface opposed to the current was about 50 superficial inches. This will give an idea of the strength of that current." —*Canadian Paper.*

**PARLIAMENTARY CONTRITEMPS.**—The London correspondent of the *Cambridge Independent* describes an odd dilemma that befell Lord Brougham while speaking on the Burial Service debate. His Lordship was speaking with his usual vehemence and gestulation, when his words became suddenly indistinct. Presently, the noble Lord came to a standstill, and commenced adjusting with his thumbs those useful artificial aids which the science of dentistry puts at the disposal of persons whose natural masticating agencies have been lost. Unfortunately, the disarrangement was of too important a character to be easily set right, and, after a vain attempt to proceed, the noble Lord fairly pulled out the upper "set" and put them in his pocket. Even then, the peers for the most part were gentlemen enough to keep their countenances, though many had hard work to do so; but the ladies present and the gentlemen sitting on the benches of the Members of the House of Commons were less delicate, and amongst them the titter was general and loud.

A San Francisco paper states that President Lincoln was once a Roman Catholic. According to this authority, he was received, with his family, into the Catholic Church in the year 1852 at La Salle, Illinois. The Rev. Father Rahm, now pastor of a congregation at Los Angeles, California, administered to him the sacrament of baptism.

**PRAYED TO DEATH.**—A young woman at Lahaina, who was baptized in February, and who had just recovered from a slight illness, became alarmingly worse and died on Easter Tuesday, at noon, with all the horrors of one impressed with the belief that she was doomed to die at that hour. It was a dreadful scene. With no tangible disease, sheer terror at the conviction that she was being prayed to death, absolutely annihilated all her vital powers. Young, strong, healthy otherwise, she died. Her grown up sisters and brothers, singularly attached to her, horror-stricken at the dreadful death, with the old heart-broken father, as they pressed around the body and literally rent the air with their cries, presented a spectacle of misery such as one seldom meets. The fact is, the people are utterly indifferent about religion, and quickly accept the new God, or say they do, to save trouble; but in the face of death all pretence is laid aside, and the firm belief in the power of another to pray them to death crushes the spirit. Pele and the Shark god are invoked to overpower the prayer of the other to avert premature death; but if no evident token is found that these deities are neutralizing the praying to death, then absolute deadness takes possession of the whole being, and despite youth, health, care and medical aid death inevitably results. A system of indirect assassination is annihilating the people. A affronts B, goes to C, gives him 70 dollars to pray A to death, tells A so, and A dies. Of course, A's father hears it, goes to D, pays him 15 dollars to pray B and C to death; tells B and C who also die. What nation could stand it? —*Polyesterian.*

## THE NEW WESTMINSTER HOUSE!

THE PROPRIETOR of the above premises, wishing to retire from public business, offers for sale one of the best stands, best furnished, and best paying Houses in the Colony.

Apply to  
W. CLARKSON.  
New Westminster, October 27, 1863. oc28-1c  
Chronicle please copy.

## J. C. WHITE,

## ARCHITECT AND DRAUGHTSMAN!

IS NOW PREPARED TO DRAW UP PLANS OF Buildings, Specifications, Estimates, &c., on the SHORTEST NOTICE.

OFFICE ON COLUMBIA ST., NEW WESTMINSTER,  
Opposite Mr. Holbrook's Store. no7-1c

## PIONEER MILLS,

## BURREAD INLET,

British Columbia.

THE SUBSCRIBERS, having completed their Saw Mill on the above Inlet, five miles above the first narrows, are now prepared to furnish

**FIR, CEDAR AND SPRUCE**  
**LUMBER,**

EITHER ROUGH OR DRESSED.

— ALSO —

## TONGUED AND GROOVED FLOORING,

in any quantity, delivered at the Mill, New Westminster, or Victoria, V. I., at prices considerably lower than those ruling at Puget Sound.

The quality of the timber on the Inlet is much superior to that either on the Sound or the Lower Fraser, and they can, consequently, engage to produce a better article of lumber.

Mr. P. Hick, of New Westminster, will receive orders, which will be promptly attended to.  
T. W. GRAHAM & CO.  
Pioneer Mills, Burrard Inlet, June 30, 1863. jyl-1c

### Poetry.

#### Withered Leaves.

[ORIGINAL]  
On many a wayside pathway  
The leaves lie thick and brown,  
And many a passing footstep  
Unheeding treads them down.  
We walk upon those withered leaves,  
With eyes and thoughts afar;  
Yet oh! How like to many things  
In this dark world they are.  
How like the hopes of early days,  
Which in life's spring had birth,  
Which heedless steps of heartlessness  
Have trodden to the earth.  
How like they are to many things—  
How like the love of old,  
That smiled upon our childish days—  
How changed, alas, and cold.  
Like to the love I lost to us,  
They early pass away;  
And to a thousand other things  
In this dark earth they are.  
But though so much has gone from us,  
How much is left us yet;  
For there are hopes that pass not by,  
And hearts that ne'er forget.  
And to our spirits overcome,  
Amid our gloom there cleaves  
A hope for that better land,  
Where no more withered leaves.

CHINESE WITNESSES.—In the towns and at the gold-fields of Victoria no cause list would now look complete without a few Chinese names. Their powers of giving evidence are as amazing as their fastidiousness as to the fashion in which they are sworn. Some of them in the witness-box blow out a lucifer match; some burn a strip of yellow paper with Chinese characters inscribed thereon; and one once in my hearing at Ballarat refused to be sworn at all but upon the ceremony of chopping off the head of a cock at one blow. In vain was the witness tempted with lucifer match, wax candle, china saucer, and every article at once handy, and deemed likely to bear on the Chinese conscience. He was inexorable, and as his evidence was important, and poultry was at that time scarce in the township, the court jury, and practitioners, were kept waiting while messengers scoured right and left in search of the necessary victim. On the cock being brought into court, emitting a cluck of terror whenever he could disengage his beak from the hand of a roguish nervous Irish policeman, even judicial gravity was sorely tried, and yet this was not all. A second commission became necessary to go in quest of a chopper, common pocket-knives being of no use, as "the one blow" was carefully explained by the interpreter as being so indispensable that cock after cock must be offered up, if there was any failure in this particular. The chopper was at last procured, the cock satisfactorily beheaded, and the Chinaman's conscience satisfied. Whereupon, so exhausted was the witness's virtue by its preliminary effort, that he burst at once into a peroxysm of perjury, which satisfied all that he was not nearly so particular in the substance of his evidence as he had been in the form of his oath.—Letter from Melbourne.

MONT BLANC.—"Lately," says the *Abbe de Chamounix*, "the cannon at the Royal Hotel announced the arrival at the summit of Mont Blanc of an ascensionist, the first who has this year accomplished the feat. An English gentleman, named Kenny, and a Russian, started on this perilous excursion, and the former succeeded in reaching the summit. The same day a melancholy scene took place at cemetery of Chamounix—the burying of the remains of a human body lately thrown out from a crevasse in the ice of the Glacier des Boussons—a foot covered with flesh, and adhering by the nerves to a dried-up thighbone of one three victims of the fatal ascent of Mont Blanc in 1820. By the side of the foot was found a compass, probably that of the doctor and carried by the guide Auguste Tairraz, as stated by the surviving guides, and which fact leaves but little doubt of the identity of the limb now found. Strange to say, it was the grandson of Tairraz who discovered it." The terrible accident so summarily alluded to above was that which occurred when Colonel Anderson, Dr. Hamel, and their party, attempted the ascent, and when Pierre Balmat, Pierre Carrez, and Auguste Tairraz lost their lives by the fall of an avalanche. Several other guides were precipitated at the same time by the falling mass of snow into a crevasse, but ultimately got out. Nothing happened to the gentlemen who were attempting the ascent.

A paradise of a printing office is thus described in the *Boston Olive Branch*, on which females are employed as compositors:—"Our rooms are well carpeted, and the girls do not come till nine or ten o'clock in the morning, retiring in good season, seldom making even seven or eight hours a day. Smart compositors can in that time earn £1 15s. a week. We have also one female clerk out of the three we employ. Added to this, one desk has also been occupied by a female editor, as our assistant, at a salary of \$250. She has spent seven hours a day in the office for five days a week. We generally have in our office an organ or a pianoforte, and have music at meal hours."

## THE SUFFERER'S BEST FRIEND.

### HOLLOWAY'S PILLS.

All Disorders affecting the Liver,  
Stomach and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alteratives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.

The wholesome effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient quality well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength and Vigour.

Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Old Coughs, Colds and Asthmatical Affections.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectively twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and even when patients who were in so bad a state as not able to lie down on their beds lest they be choked with phlegm.

Derangement and Distention of the Bowels, Flatulency, Diarrhoea and Dysentery.

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions: delay may be followed by disastrous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.

Rarely but little notice is taken of costiveness, yet, as certain periods, when a sure sign that danger is near. All who are seized with constipation, and particularly those who are suffering from costiveness, in the former case the blood flows to the head, a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drooping. A few gentle doses of these fine Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fever of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throat
Blotches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Secondary Symp-
Colic	Indigestion	toms
Constipation of the bowels	Inflammation	Tie Douleur
Coughs	Jundice	Tumours
Consumption	Liver Complaints	Ulcers
Debility	Lumbago	Veneral Affections
Dropsy	Piles	Worms of all kinds
Dysentery	Rheumatism	Weakness, from whatever cause, &c., &c.
Erysipelas		

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1ld., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

\*There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box. au12

## ALL CURES MADE EASY!!

### HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance when ever this Ointment is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of each of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm & other Skin Diseases.

After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

Sore Throats, Diphtheria, Quinsey, Mumps & all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat: this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula or King's Evil and Swelling of the Glands.

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Contracted Hands.	Scalds.
Bad Breasts.	Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore Throats.
Bunions.	Fistulas.	Skin Diseases.
Bite of Mosquitoes.	Gout.	Scurvy.
and Sand-Flies.	Glandular Swellings.	Sore-heads.
Coco-bay.	Lumbago.	Tumors.
Chin-chin.	Piles.	Ulcers.
Corns (soft).	Rheumatism.	Wounds.
Cancers.		Yaws.
Chilblains.		

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London: and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1ld., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

\*There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. au15
